Capabilities Statement

250	100	20	50K
MORE THAN 250 MIGRATION PROJECTS	OVER 100 EXABYTES OF DATA MIGRATED	DATA MIGRATIONS IN OVER 20 COUNTRIES	MORE THAN 50,000 SERVERS MIGRATED

Data Agility Group is a full-service data migration and data center relocation company, providing end-to-end services for both logical and physical migration projects.

Data Center & Workload Assessment

DAG has extensive expertise helping government agencies achieve their modernization objectives with the most efficient, best-in-class tools and methodologies. When issues surface, we are agile and can protect our customers against mission critical interruption, ensuring a secure and seamless transition.

Data Migration

Data Agility Group solves the resource and logistical challenges of moving and migrating workloads and data by applying focused expertise and experience to standard, non-standard, and heterogeneous storage environments while mitigating impact to operations.

Infrastructure Relocation Services

DAG, has developed a comprehensive data center relocation methodology and other data center services that give you the freedom to focus your IT resources on the logical and operational aspects of your migration while we handle all the technical and physical aspects of the relocation.

Cloud Services

The choices for on-premise, cloud, and hybrid architecture can be overwhelming and outright confusing if you don't know where to begin in your search. Understanding and assessing your current application and technology's strengths, weaknesses, and interdependencies will enable us to better deliver best-fit cloud strategy.
